

March 2nd to 5th, 2020

CRESENT

Introduction:

Engineers have the instinct to visualize balance and stabilize everything around. In BRICKraft, we provide an opportunity for the students to leverage their common sense and balancing instincts to construct a strong and stable arch like structure using just bricks, sand and water.

PROBLEM STATEMENT:

Problem will be provided on the spot.

MATERIALS PROVIDED TO EACH GROUP:

- □ Sand
- □ Bricks
